

## A Specialty Pharmaceutical Group

#### A strategy of growth and geographical expansion

- A mid sized pharmaceutical company with a European focus. 2011 revenue € 762 million, EBIT € 163 million, net income € 116 million. Over 3,200 employees.
- R&D in the cardiovascular and urology fields and in treatments for rare diseases
- Marketing operations in the main Western European markets and in Russia, CEE and Turkey
- Proprietary drugs sold worldwide through licensees

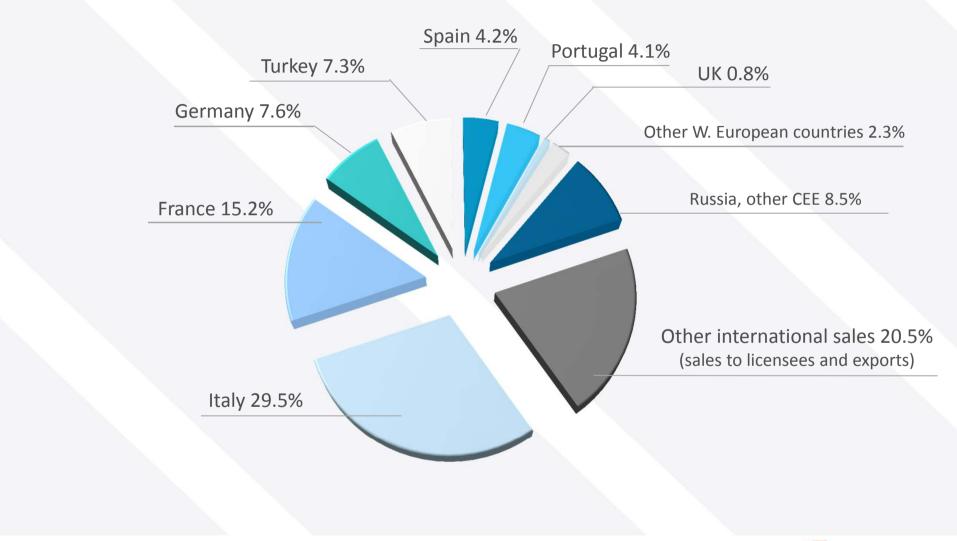

- Expand through organic development and through acquisitions
- Develop product portfolio by enhancing product pipeline and new product acquisitions. Prioritize special care.
- Pursue geographical expansion by entering new markets characterized by high growth
- Develop sales of orphan drugs worldwide

## Our products are sold in 135 countries

## A growing presence in Eastern Europe and Turkey

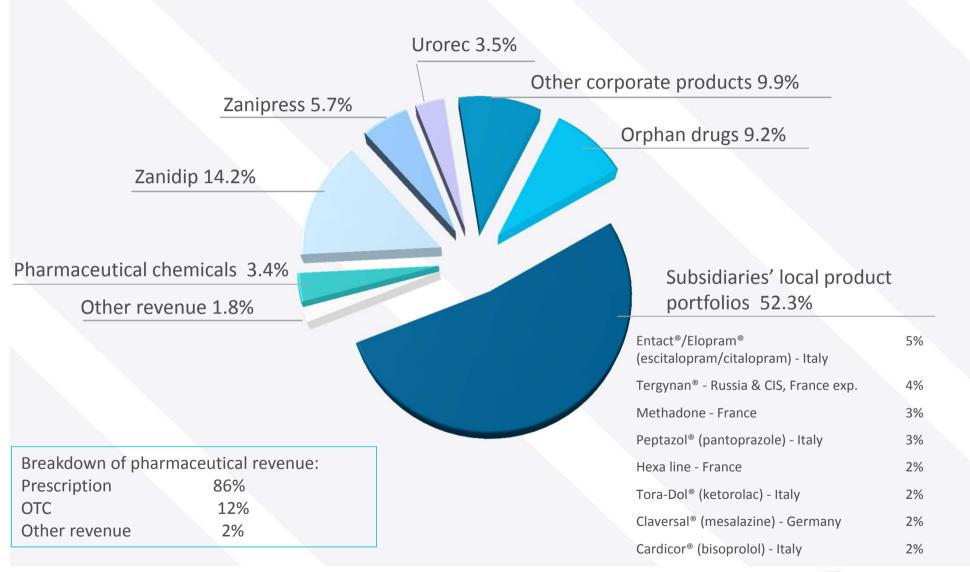

Data: 1Q 2012

Pharmaceutical revenue € 212.1 m

## A richer product portfolio

Data: First quarter 2012

Total revenue € 219.6 m

## Sales development

## **Key growth drivers**

- New corporate products: Urorec<sup>®</sup> (silodosin) Livazo<sup>®</sup> (pitavastatin)
- New growing markets
- Orphan drug business

## **New corporate products**

## **Urorec**<sup>®</sup> (silodosin)

- Highly selective  $\alpha_{1A}$  receptor antagonist indicated for the treatment of symptoms associated with benign prostatic hyperplasia (BPH).
- Fast onset of action. High efficacy. Very good cardiovascular safety.
- Launched in 15 markets: Belgium, Bulgaria, Czech Rep., France, Germany, Greece, Ireland, Italy, Lebanon, the Netherlands, Portugal, Romania, Russia & CIS, Slovakia and Spain. Further launches to take place.
- License and co-marketing agreements in place with important players
- BPH market in 19 major European markets approx. € 1.0 billion
- In-market peak sales expected: € 100-150 million

#### **New corporate products**

## Livazo® (pitavastatin)

- Highly effective HMG-CoA reductase inhibitor indicated for the treatment of hypercholesterolaemia.
- Thanks to its unique chemical structure Livazo® is a potent LDL-lowering drug with a consistent and progressive HDL-raising effect. (Atherosclerosis Supplements 2010; 11:15-22)
- Livazo<sup>®</sup>, unlike most statins, is only minimally metabolized through a CYP pathway thereby reducing the risk of drug-drug interactions and providing a clear benefit in patients receiving polypharmacy. (Atherosclerosis Supplements 2010; 11:15-22)
- Launched in Spain and Portugal, further launches to take place
- Statins market in the key countries covered by the agreement was € 3.5 billion in 2010
- In-market peak sales expected: € 100-150 million

#### Lercanidipine franchise

# Zanipress® (lercanidipine+enalapril) Zanidip® (lercanidipine)

- Lercanidipine is a latest generation calcium channel blocker indicated for the treatment of hypertension. Enalapril is an ACE inhibitor indicated for the treatment of hypertension.
- Sales of Zanidip® (lercanidipine) to erode progressively over time following its patent expiry at the beginning of 2010.
- Sales of Zanipress® (lercanidipine+enalapril) to grow as promotional effort switched from Zanidip®
- Zanipress® to be rolled-out progressively in new markets
- Zanipress® prices will come under pressure
- Sales of the Zanidip®/ Zanipress® franchise expected to stabilize at around € 165 million

#### **New growing markets**

## Russia, Ukraine and other C.I.S. markets

Russia has the largest pharmaceutical market in the CEE region, forecast to grow at a CAGR of 11.6% in the period 2010-2014. (Jefferies)

- Rusfic in Russia and FIC Médical in the other CIS countries to become exclusive Recordati subsidiaries over the 2011-2013 period
- Sales organization increased to around 210 reps
- New and existing corporate products to be added to the current portfolio of promoted products
- Launch of corporate products started in 2011
- Revenue generated in this area in 2011 € 36.9 million, up 34.8%. First quarter 2012 sales grow by 49.7%.

#### **New growing markets**

## **Turkey**

Turkey remains one of the most promising pharmaceutical markets in Central and Eastern Europe in the long term. (Research and Markets)

- Following the acquisition of Yeni Recordati in 2008 and of Dr. Frik İlaç in 2011 the Turkish market represents the third largest in the Group after Italy and France, together with Germany
- Sales organization increased to nearly 400 reps
- Recordati corporate products now sold directly in Turkey
- Launches of new corporate products started in 2011

#### **Orphan drugs**

## Orphan Europe - A worldwide business

Huge market potential: 5,000-7,000 rare diseases identified for which only 72 orphan drugs are approved.

Progressive country introduction of rare disease plans and access to diagnostic tests will stimulate the market for orphan drugs.

- Sales CAGR >16% since 2008
- Carbaglu® (carglumic acid) approved and launched in the U.S.
- New indication for Carbaglu<sup>®</sup> approved in Europe
- Sales coverage of new territories outside Europe, including the U.S., either directly or through partnerships
- Sales of drugs for rare diseases in 2011 total € 69.3 million, an increase of 17.9%. First quarter 2012 sales grow by 11.8%.

#### **Orphan drugs**

ADAGEN® (pegademase bovine), indicated in the treatment of SCID-ADA deficiency

CARBAGLU® (carglumic acid), indicated in the treatment of hyperammonaemia due to NAGS deficiency and to the main organic acidemias

CYSTADANE® (betaine anhydrous), indicated in the treatment of homocystinuria

CYSTAGON® (cysteamine bitartrate), indicated in the treatment of nephropathic cystinosis

NORMOSANG® (human haemin), indicated in the treatment of acute attacks of hepatic porphyria

PEDEA® (ibuprofen I.V.), indicated in the treatment of patent ductus arteriosus

VEDROP® (water soluble vitamin E), indicated in the treatment of vitamin E deficiency in pediatric patients suffering from congenital chronic cholestasis

WILZIN® (zinc acetate), indicated in the treatment of Wilson's disease

## A well balanced R&D pipeline

NAME	ORIGINATOR	INDICATION	DEVELOPMENT STATUS
CARBAGLU®	Recordati	Organic acidemias	Approved in EU Phase III in U.S.
NORMOSANG®	Recordati	Hepatic porphyria	Pre-registration in U.S.
lercanidipine/enalapril combination*	Recordati	Essential hypertension	Pre-registration
REC 0482	Nymox (NX-1207)	Benign prostatic hyperplasia (BPH)	Phase III
CYSTADROPS®	Recordati	Ocular cystinosis	Phase II
REC 0422	Recordati	Overactive bladder and Incontinence	Phase II
REC 1819	Recordati	Overactive bladder and Incontinence	Phase I
REC 0438	Recordati/UFPeptides	Overactive bladder in patients with spinal lesions	Phase I
* New dosage			

#### A well balanced R&D pipeline (cont'd)

- CARBAGLU® (carglumic acid), currently approved for the treatment of hyperammonaemia due to NAGS deficiency, recently approved in Europe and in phase III clinical development in the USA for additional indications in organic acidemias.
- NORMOSANG® (human haemin) is indicated for the treatment of acute attacks of hepatic porphyria. It is an emergency medicine used to stop the attack and prevent neuropathic complications. Normosang® is approved in Europe and contacts are ongoing with the FDA to pursue its approval in the USA.
- REC 0482 (NX-1207) is a novel patented drug developed by Nymox, currently in Phase III trials in the U.S., which involves a new targeted approach to the treatment of benign prostatic hyperplasia (BPH). The drug is administered by a urologist in an office setting directly into the zone of the prostate where the enlargement occurs. No anesthesia or catheterization are required. A single dose of NX-1207 has been found to produce very promising symptomatic improvements and follow-up studies have shown evidence of long lasting benefit with a significant proportion of men who received a single dose reporting maintained improvement in BPH symptoms without other treatments for several years.

#### A well balanced R&D pipeline (cont'd)

- CYSTADROPS® (cysteamine chlorhydrate) are eye drops developed for "ocular manifestations of cystinosis" which cannot be controlled by orally administered cysteamine, specially formulated in a patient-friendly gel form.
- REC 0422 is a combination of two existing drugs, indicated for other conditions, which has displayed a significant synergistic effect in pharmacological models of overactive bladder (OAB), a condition associated with irritative symptoms of the lower urinary tract (mainly urgency and frequency with or without incontinence) affecting mainly women and the elderly.
- REC 1819 has a completely new mechanism of action at the CNS level and is also being studied for the treatment of symptoms associated with overactive bladder.
- REC 0436 represents a structurally different class of compounds and is being studied for the treatment of OAB in patients with spinal lesions

#### First quarter 2012 highlights

#### A good quarter

- Revenue € 219.6 million, up 11.0%.
- Operating income (EBIT) € 47.6 million or 21.7% of sales, up 7.5%.
- Net income € 33.8 million or 15.4% of sales, up 7.5%.
- Phase III trials started for REC 0482, the new innovative BPH treatment from Nymox
- Acquisition of 6 OTC products for our German subsidiary, Recordati Pharma, in April
- Urorec® (silodosin) now launched in 15 countries, with an overall market share of over 6%.

#### The Recordati share

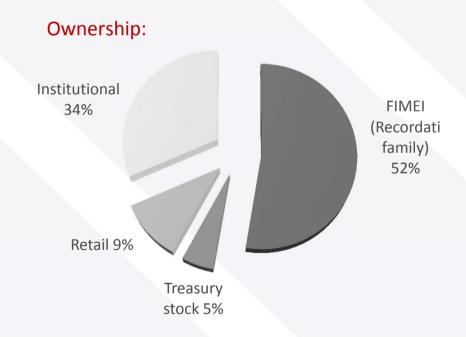

The Recordati share (ticker REC, Reuters RECI.MI, Bloomberg REC IM, ISIN IT 0003828271) has been listed on the Italian Stock Exchange since 1984. It belongs to the FTSE IT Mid Cap and FTSE IT Health Care indexes.

Share capital consists of 209,125,156 ordinary (common) shares with a par value of € 0.125 each.

2011 EPS (diluted): € 0.556

2011 dividend per share: € 0.30

Market cap end May 2012: € 1.1 billion

#### Company declarations, disclaimers and profile

#### DECLARATION BY THE MANAGER RESPONSIBLE FOR PREPARING THE COMPANY'S FINANCIAL REPORTS

The manager responsible for preparing the company's financial reports Fritz Squindo declares, pursuant to paragraph 2 of Article 154-bis of the Consolidated Law on Finance, that the accounting information contained in this presentation corresponds to the document results, books and accounting records.

Statements contained in this presentation, other than historical facts, are "forward-looking statements" (as such term is defined in the Private Securities Litigation Reform Act of 1995). These statements are based on currently available information, on current best estimates, and on assumptions believed to be reasonable. This information, these estimates and assumptions may prove to be incomplete or erroneous, and involve numerous risks and uncertainties, beyond the Company's control. Hence, actual results may differ materially from those expressed or implied by such forward-looking statements.

All mentions and descriptions of Recordati products are intended solely as information on the general nature of the company's activities and are not intended to indicate the advisability of administering any product in any particular instance.

Recordati, established in 1926, is a European pharmaceutical group, listed on the Italian Stock Exchange (Reuters RECI.MI, Bloomberg REC IM, ISIN IT 0003828271) with a total staff of over 3,200, dedicated to the research, development, manufacturing and marketing of pharmaceuticals. Headquartered in Milan, Italy, Recordati has operations in the main European countries, in Central and Eastern Europe, and in Turkey. A field force of around 1,700 medical representatives promotes a wide range of innovative pharmaceuticals, both proprietary and under license, in a number of therapeutic areas including a specialized business dedicated to treatments for rare diseases. Recordati is a partner of choice for new product licenses from companies which do not have a European presence. Recordati is committed to the research of new drug entities within the cardiovascular and urogenital therapeutic areas and of treatments for rare diseases. Consolidated revenue for 2011 was € 762.0 million, operating income was € 163.5 million and net income was € 116.4 million.
