Letter from the Chair

of the Committee for the Remuneration and the Nominations

Dear Shareholders,

Together with the other members of the Remuneration and Nominations Committee, I hereby present to you the Report on the 2023 Remuneration Policy and compensation paid for 2022, structured as required by article 123-ter of the Consolidated Law on Finance and approved by the Board of Directors on March 17th, 2022.

The year 2022 was marked by a continuation of the pandemic situation in some geographies but also by the escalation of a series of geopolitical and economic tensions that had a major social impact. The war in Ukraine, tension on prices of some inputs, shortages of some components, rising energy costs, and inflationary pressures have consequences on the global and national economic and social context, further confirming the need for increasing attention to sustainability as a solution for resilience and value creation. Despite the scenario difficulties, the Company was able to achieve important results, thanks to the commitment of the human resources working in this Group.

In this context, we believe that the remuneration policy represents a strategic element to sustain results, guiding Company's behaviours and remunerating the great contribution of our people to Recordati.

the work of the Committee has been enriched by in-depth analysis on the vote implemented at the last Shareholders' Meeting. This analysis reflected in some improvements in the Policy to further align the interests of Shareholders and Stakeholders. In addition, the Policy, acting in full compliance with the Italian and European reference legislation, continues to incorporate market best practices.

The engagement plan adopted by the Committee is intended to be a channel of communication with those who have an interest in our Company, by developing and guaranteeing a constant and direct connection with our investors and proxy advisors. All the feedback collected during the engagement meetings, and the analyses we performed, provided us with important inputs for the amendments we have included in this Report and, in general, in Recordati's 2023 Remuneration Policy.

Continuous improvement is a Recordati value which also impacts our behaviour. For the purpose of further aligning to the current legislation and improving the transparency and usability of this Policy, Recordati has decided:

- To provide more information about the engagement activities carried out;
- To better qualify how the Policy intends to increase the pursuit of long-term interests, with increasing and non-formal attention to sustainability issues and the connection with Recordati's new Sustainability Plan;
- Propose adoption to the shareholders' meeting the new Long Term Incentive plan capable of appreciating both the value created for shareholders and a sustainable growth model;
- To continue providing transparency and valuable information to the market, describing the market references and the peer groups used in carrying out the analyses on the competitiveness of the remuneration packages;

During 2022, the Remuneration and Nominations Committee has reviewed the long-term variable incentive scheme aimed at ensuring greater alignment with market best practices and with investors' and proxy advisors' recommendations. This intervention comes after the important work carried out in 2021 on short-term incentives, that led to the modification of the short term plan's curve.

In this context of strong transformation and strategic innovation, we believe that these Guidelines on Remuneration Policy are consistent with the Group's clear and distinctive vision and confirm our people's value as a fundamental competitive advantage with a view to achieving long-term sustainable results for Investors and other stakeholders.

I would like to take this opportunity to express my gratitude to Board members Elisa Corghi and Michaela Castelli for the valuable and always timely support and valuable work that has guided the efforts made by the current Remuneration Committee. Our work has been at the service of investors and the Group. I also express my sincere

gratitude to the members of the Board of Statutory Auditors for providing their valuable contribution to our action with their expert opinions. Last but not least, my thanks to the corporate structures that have consistently and effectively supported us in the course of our work.

On behalf of the entire Compensation Committee, I would like to conclude by thanking you in advance for your interest in our Compensation Policy each year, and I trust that as Shareholders you will find in this document comprehensive and useful information.

Best regards,

Joanna Le Couilliard
Chair of the Remuneration and Nominations Committee

2023 New Features

Taking into account the governance and business evolutions that took place during 2022, the 2023 Remuneration Policy provides for the following changes in order to further align Recordati's Policy with best practices and to incorporate the valuable information collected during the *engagement* season:

- the introduction – subject to approval from Shareholder' meeting - of a new LTI plan (Performance Share 2023-2025), based on the granting of shares free of charge subject to passing of a vesting period and the achievement of predetermined performance conditions;
- an increasing and timely description of the link between the Remuneration Policy and the sustainable growth of the Group;
- the pursuit of increasingly better disclosure, with particular reference to performance systems;
- the inclusion of specific ESG objectives for some top managers as part of the MBO program;

Section I: 2023 Remuneration Policy Report

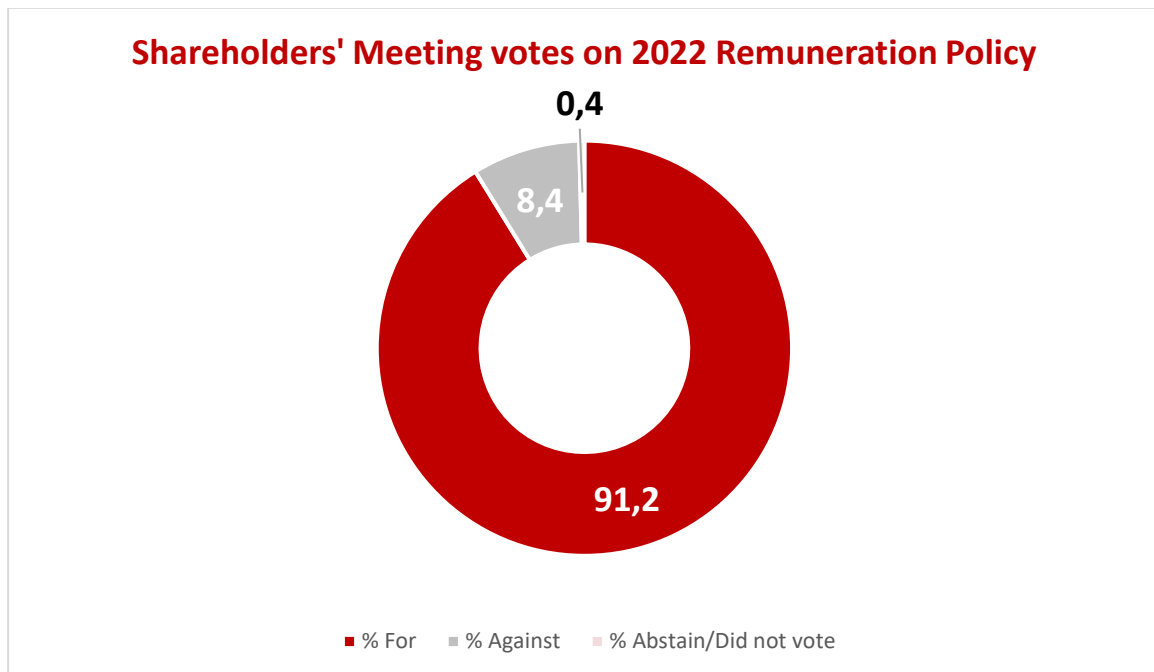

1. Engagement

and remuneration policies

1.1 Voting results and investor feedback

Recordati attaches great importance to the annual analysis of the results of shareholders' meeting votes, as well as to the opinion of the main recipients and users of its Remuneration Policy, in order to ensure a constant improvement in adopting market best practices, taking into account some of the indications for improvement coming in particular from shareholders and proxy advisors.

The Annual General Shareholders' Meeting on 9th April 2022 voted in favour of Section I of the Report on the Remuneration Policy and the Remuneration Paid published in 2022. The chart below illustrates the result of the binding vote, which highlighted a substantial confirmation of the votes in favour compared to the previous Annual General Meeting.

The voting result of the Shareholders' Meeting of 9th April 2022 was analysed within the overall governance framework that characterises the Company's remuneration and incentive policies and schemes.

Further to this analysis process, Recordati has therefore implemented the activities necessary to ensure an

improvement in the Remuneration Policy and in this Report, performing in-depth analyses of the indications received from Institutional Investors and Proxy Advisors at the last Shareholders' Meeting, with the objective of developing the considerations expressed by them with regard to the main areas of improvement in the Report on the Remuneration Policy and the Remuneration Paid.

Furthermore, with this Report, Recordati continues to guarantee a high level of transparency, an element which it considers to be fundamental for proper relations with its shareholders.

1.2 Engagement activities carried out by Recordati

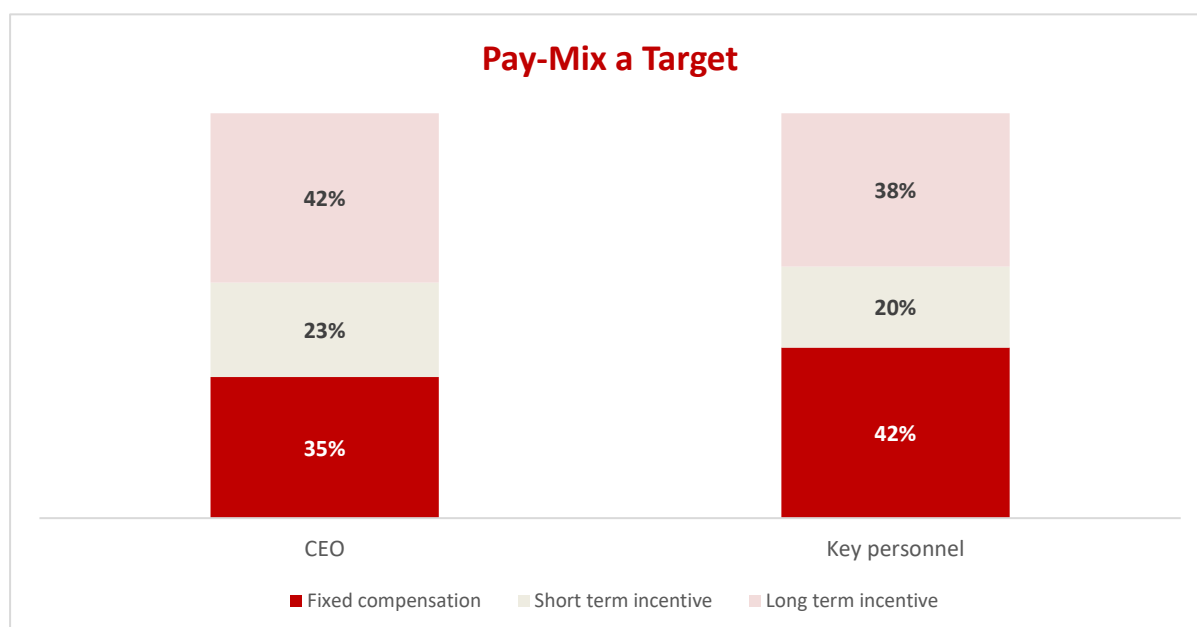

Recordati promotes dialogue with its shareholders and institutional investors as an essential element to positively influence the Company's behaviour and increase the degree of transparency. In this context, the Company has established a constant and continuous relationship with proxy advisors and the main institutional investors in order to encourage their involvement in the process of defining and verifying the actual methods of implementing the Remuneration Policy for Directors and Managers with Strategic Responsibilities.

This activity is carried out through the development of an engagement plan carried out on an annual basis that provides for the participation of the corporate functions of Human Resources, Investor Relations and Legal Affairs supported by the Chairman of the Remuneration Committee to highlight the commitment of the Committee itself on matters within their competence.

The results, indications and feedback that emerged during the engagement activity, once reported, are examined and evaluated by the Remuneration Committee in order to provide any clarifications and verify the overcoming of potential critical issues. Finally, the Committee reports to the Board of Directors on the relevant developments and significant content arising from these engagement activities, through the Chairman or other member designated by the Chairman

1.3 Pay mix of the Chief Executive Officer and Key Management Personnel

Below evidence is provided regarding the estimation of the pay mix for 2023 of the current Chief Executive Officer and Key Management Personnel, i.e. the percentage breakdown of the individual remunerative components within the overall package in the case of target performance.

2. Governance

of the remuneration process

2.1 Bodies and persons involved

The definition of the Remuneration Policy for the members of Recordati's Board of Directors (hereinafter also referred to as the 'BoD') involves a number of individuals and corporate bodies in accordance with the provisions of the Company's By-Laws and current legislation. According to these regulatory and statutory provisions:

- the Shareholders' Meeting determines the remuneration of the members of the Board of Directors, at the time of appointment and for the entire term of office;
- the Board of Directors determines the remuneration of the Chair, of the Directors with delegated powers and for participation in the Board Committees, following consultation of the Board of Statutory Auditors.

In accordance with Recordati's governance model, the Board of Directors is also responsible for defining the objectives and approving the company results referred to in the performance plans, to which the determination of the variable remuneration of the Chief Executive Officer is linked, as well as defining the general criteria for the remuneration of other Key Management Personnel.

Finally, in line with the recommendations contained in the Corporate Governance Code, the Board of Directors is supported, with regard to remuneration issues, by a Remuneration and Nominations Committee composed of independent non-executive Directors with advisory and consultative functions on the matter.

2.1.1 Shareholders' Meeting

The duties of the Shareholders' Meeting pursuant to law and the By-Laws, limited to the issues covered by this Report, are:

- to appoint and dismiss Directors, appoint Statutory Auditors and the Chair of the Board of Statutory Auditors;
- to determine the remuneration of Directors and Statutory Auditors;
- to approve the Incentive Plans based on financial instruments or on performance objectives linked to the Company's share price performance;
- to express a binding vote on the approval of the first section of the Company's Remuneration Report, pursuant to article 123-ter of the Consolidated Law on Finance;
- to express a non-binding vote on the approval of the second section of the Company's Remuneration Report, pursuant to article 123-ter of the Consolidated Law on Finance.

Activities

The Remuneration and Nominations Committee meets periodically and as often as necessary to carry out its functions according to an annual calendar that typically follows the below activity cycle:

2.1.4 Other intra-board Committees

It should be noted that, where provided for by internal regulations and corporate governance processes, specific remuneration and incentive issues are also discussed in the Risk, Control and CSR Committee, which formulates its opinion, making use, where deemed necessary, of the relevant internal functions.

2.2 Policy approval process

In line with the relevant laws and regulations in force and with the recommendations of the Corporate Governance Code, the decision-making process leading to the implementation of the Remuneration Policy and the responsibility for its correct application takes place in the following phases in which many parties are involved:

1. The Remuneration and Nominations Committee, supported by the Group's Human Resources Department, draws up the Company's Remuneration Policy for Directors, the General Manager³ and the Key Management Personnel;
2. The Remuneration and Nominations Committee may avail itself of the assistance of independent experts on the matter;
3. The Remuneration and Nominations Committee submits the Policy for the Board of Directors' approval which adopts its contents regarding the remuneration policy of Directors and the Key Management Personnel and the short and long-term incentive plans. Moreover, with regard to the determination of the remuneration of the Chief Executive Officer and of the other Directors vested with special duties, the Board takes into account the opinion of the Board of Statutory Auditors;
4. The Board of Directors, having examined and approved the Policy, submits it to the vote of the Shareholders' Meeting.

³ At the date of this Report there is no General Manager in place

2.3 Independent experts and other persons involved

Recordati regularly monitors market performance, including through the use of remuneration benchmarks which detect the practices adopted by the main market and industry players. In carrying out these analyses, Recordati made use of independent consultancy firms, which, through benchmarking remuneration surveys and reports on Executive Compensation and Corporate Governance, provided useful information in order to verify the competitiveness of the Company's remuneration offer.

In addition, the Company decided to avail itself of the support of the consultancy firm WTW also in relation to the preparation of this Report, as well as the identification of market practices in terms of remuneration of the CEO, the Key Management Personnel and the Non-Executive Directors.

For the purposes of defining the Company's Remuneration Policy, the Group Human Resources Department prepares the guidelines. This function also acts as an internal technical support body for the Remuneration and Nominations Committee, for which it prepares the preparatory material for the Committee's activities. The Administration, Finance and Control Department assists in identifying and assessing the economic and financial objectives underlying the short and long-term incentive systems. The heads of the other company departments are also consulted in order to define the project objectives or objectives relating to specific issues regarding short-term incentive systems.

The Remuneration Policy may, if necessary or appropriate, be updated by the Board of Directors, on the proposal of the Remuneration and Nominations Committee, which is responsible for periodically assessing, as better described below, its adequacy, overall consistency and effective application.

2.4 Derogation procedure in exceptional circumstances

As provided for by Article 123-ter, paragraph 3-bis of the TUF (Testo Unico della Finanza) updated in 2019 and by Article 84-quater of the Issuers' Regulations updated in 2020, Recordati may temporarily derogate its remuneration policies in the presence of exceptional circumstances. Exceptional circumstances are defined as only situations in which a derogation of the remuneration policy is necessary in order to pursue the long-term interests and sustainability of the Company as a whole or to ensure its ability to stay in the market.

If the conditions are met, the Board of Directors, on the advice of the Remuneration and Nominations Committee as the Committee responsible for Related Party Transactions as provided for in the relevant Group Procedure, may temporarily⁴ derogate the remuneration policy in the circumstances identified above, limited to the following elements set out in Chapter 3 of Section I of this document:

- Fixed component of remuneration;
- Short-term variable component (STI);
- Long-term variable component (LTI);
- Non-monetary benefits;
- Severance pay;
- Additional insurance, social security and pension coverage.

⁴ The Board resolution will determine the duration of this derogation and the specific elements of the Policy that are derogated

3. The Company's

Remuneration Policy

3.1 Purposes of the Policy and its link with corporate strategy

The purposes pursued with the Remuneration Policy, which has a yearly duration, are to meet the objective of establishing a remuneration that meets the requirements to:

- be sufficient to attract, retain and motivate *Managers* with the professional qualifications required to successfully manage the organisational and managerial complexity of the Company and of the Group;
- align *Managers'* interests with the pursuit of the priority objective of creating value for shareholders in the medium to long-term horizon;
- link a significant part of the total remuneration to the achievement of specific performance objectives, both qualitative and quantitative, determined in advance and in line with the development lines of the Company and of the Group.

The Remuneration Policy is also defined in line with the strategy of the Company and of the Group.

Recordati's strategic vision is to continue with the profitable growth that the Company has been sustaining since the early nineties, focusing on both organic growth and development through strategic acquisitions in both the Rare Diseases business and in the Specialty and Primary Care business, with the objective of strengthening its presence in selected markets worldwide. In fact, over the last few decades, the Group has grown steadily, thanks to the success of its products and its growth model based on internalisation and diversification, implemented precisely through an acquisition strategy that is still underway, in addition with the organic growth of the business. All of this takes place in a context of searching for new opportunities and continuous market evolution.

In addition, starting in 2018, the Company has also undertaken several initiatives in the field of sustainability. In fact, given the nature of the Company, sustainability is an integral part of the Group's strategy, aimed at bringing benefits not only to patients but also to all the stakeholders with whom the Company interacts, including shareholders, customers, scientific and business partners, collaborators and local communities.

To this end, each of the remuneration components offered to the Company's Management responds to a precise purpose for the pursuit of this strategic vision and, thanks to an adequate balance between fixed and variable components, contributes to the structuring of a remuneration package that, overall, ensures an effective alignment between Management remuneration and shareholders' interests, expressed primarily by the proportionality between the value of the variable components accrued and the results achieved, both in the short and long-term.

Below are the features of Recordati's Remuneration Policy, confirming its alignment to the interests of its shareholders:

Remuneration component

Features and Purposes

<p>Fixed remuneration</p>	<ul style="list-style-type: none"> It includes all the fixed annual remuneration (<i>i.e.</i> gross annual salary from employment, remuneration for directors, remuneration for special positions). It is defined in such a way as to be adequately balanced with respect to the variable component and consistent with the Company's strategic objectives and risk management policy, also taking into account the characteristics of the industry in which the Company operates.
<p>STI (Short-term variable incentive)</p>	<ul style="list-style-type: none"> It is commensurate with the role held, as well as on the nature of the impact on the Company's overall results in the short-term. It is linked to the achievement of annual, quantitative and/or qualitative performance objectives that are objectively measurable and consistent with the objectives set out in the Company's strategic plan and sustainability policy. It is designed – in line with market practice - to be reduced or increased in proportion to the level of performance generated with respect to the objectives assigned.
<p>LTI (Performance Share)</p>	<ul style="list-style-type: none"> It is commensurate with the role held, as well as on the nature of the impact on the Company's overall results in the long-term. It is linked to the primary objective of creating relative value for shareholders, via the presence of relative TSR and consistent with the objectives of the strategic plan in terms of Adjusted Net Income e net Revenues.

The objectives of the variable incentive systems themselves have been identified to support the Company's strategy, as illustrated below:

Economic and financial objectives:

These are the main objectives. Operating Income, Revenues and Net Profit for the MBO are objectives that represent measures capable of summarizing Recordati's many businesses and thus to fully assess the Group's results. Cumulated Adjusted Net Income budget and cumulated Net Revenues budget are among the targets of the mid-long term plan and are considered able to reflect the Group's business results.

Value creation for Shareholders:

The natural connection of the Performance Share plan with the relative value of the Recordati's share price, compared with a panel of competitor companies, due to the presence in the medium- long-term plan of the relative TSR index, it determines a strong alignment between the interests of the Shareholders and those of the Top Management further strengthened by the total of 5 years time horizon (of which 2 refer to lockup period).

Growth through strategic acquisitions:

Among the objectives of the MBO scheme, the Acquisition/Licensing objective, assigned to the Chief Executive Officer in addition to driving pipeline development projects and certain Key Management Personnel, supports the Group's acquisition strategy, which has always been a key element for the growth of the Company.

Environmental, Social, and Governance (ESG):

The implementation of a new style of work more oriented towards engagement, talent attraction and development, the adoption of production methods more oriented towards environmental sustainability are elements present in the remuneration policy to strengthen the link with the strategy regarding environmental, social and governance issues

Recordati's Remuneration Policy is also consistent for all employees. In fact, the Company monitors the remuneration and working conditions of its employees annually. The definition of transparent remuneration policies and based on merit, the training activities designed to develop new skills, the offer of additional benefits for all employees are fundamental in this respect.

3.1.1 Recordati's Sustainability Plan

The Recordati Group's Sustainability Plan, defined in line with the materiality analysis carried out, focuses on five priority areas: ethics and integrity, responsibility towards patients, attention to people, environmental protection and responsible sourcing. It is a fundamental tool for sharing the journey with stakeholders and represents the expression of the Group's ambitions and what it wants to commit itself to contributing to sustainable and responsible development. In a logic of continuous improvement, the Plan provides for periodic monitoring and updating. To this end, in 2022 Recordati worked on updating the targets included in the Plan, after updating the Materiality analysis.

More information on Recordati's Sustainability Plan are available in the 2021 Consolidated Non-Financial Statement published on the Company's website.

Recordati's Remuneration Policy is closely linked to its Sustainability Plan. Among the objectives of the CEO's MBO system, there are the main social and environmental objectives of the Sustainability Plan related to patient care, people care, environmental protection, ethics & integrity and responsible sourcing. In addition, social and environmental objectives, linked to the implementation of the Plan itself, are attributed to a manager with strategic responsibility, the Executive VP Group Industrial Operations. ESG objectives are also attributed to other Managers of the Group, among the objectives of the STI (MBO) system. The assignment of these objectives supports the

strategy on environmental, social and governance issues, focusing the attention of Top Management on the implementation of the Plan.

3.1.2 Compensation and working conditions of employees

The Company monitors working conditions and remuneration annually, in order to promote a consistent remuneration policy for all employees, both at Headquarter and Subsidiary level, in line with the Principles of the Sustainability Policy. Among the most significant commitments in the Human Resources area, there are initiatives relating to the area of:

- Health & Safety
- Training
- Engagement activities
- Diversity & Inclusion also with a focus on the gender gap and gender representation in the companies of the Group
- Benefits and welfare policies

3.2 Principles and criteria underlying the Policy

The principles and criteria underlying the Remuneration Policy are as follows:

- to facilitate the pursuit of the sustainable success of the Company;
- to provide for a balance between the fixed and variable components - depending on the role performed, i.e. the nature of the impact on the Company's overall results - that is appropriate and consistent with the Company's strategic objectives and risk management policy, taking into account the business' characteristics and the industry in which it operates, providing that the variable component represents in any case a significant part of the overall remuneration;
- to provide for maximum limits for variable components - in line with the objectives of the strategic plan -, linking them to predetermined, measurable, qualitative and quantitative performance objectives linked to the creation of value for shareholders in both the short and medium to long-term horizon;
- to encourage the retention and protection of the Group's key resources by encouraging them to remain within the Group.

3.3 Implementation of the 2023 Remuneration Policy

For Directors, the Remuneration Policy is in place for the 2022-2024 mandate approved by the Board of Directors on March 17th, 2022 that provides the set of remuneration consistent with the role complexity and the required commitment, in line with current market benchmarks.

The Ordinary Shareholders' Meeting held on April 29th, 2022 has defined the relative remuneration as far as it is concerned

In implementing the aforementioned principles, it should be noted that:

- the remuneration of Directors not vested with special duties is determined in order to ensure full alignment with the activities required by participation in the Board of Directors and the Board Committees, with a differentiation in the Chair's remuneration with respect to the members of each Committee;
- the remuneration of the Chair of the Board of Directors consists of a fixed remuneration commensurate with the position held;
- the remuneration of the Chief Executive Officer is adequately balanced between:
 - a fixed component, commensurate with the powers and/or responsibilities assigned;
 - a variable component linked to the achievement of predetermined, measurable and defined objectives so as to ensure the remuneration of the performance in both the short and the long-term timeline, in line with the economic and financial targets of the Group's Strategic Plan.

3.4 Remuneration of the Board of Directors and of the Board of Statutory Auditors

This section highlights the main features of the remuneration policy for the members of the Board of Directors and of the Board of Statutory Auditors.

3.4.1 Remuneration of the Board of Directors

Remuneration by the Shareholders' Meeting

Recordati's Board of Directors is composed of Executive and Non-Executive Directors. With reference to the former, indication is provided in the following paragraphs.

With regard to Non-Executive Directors, for which article 5 of the Corporate Governance Code provides that the remuneration shall not be – other than for an insignificant portion – linked to the financial performance objectives achieved by the Company. Recordati has established a single fixed annual remuneration, thus fully falling within the provisions of the article. For the 2022-2024 term of office, this remuneration was determined by the Shareholders' Meeting of April 29th 2022 and is equal to:

Non-Executive Directors	
Remuneration pursuant to article 2389, paragraph 1, of the Italian Civil Code	€ 60,000

These Directors are also entitled to reimbursement of expenses incurred in the performance of their duties as well as third party liability insurance coverage.

Remuneration for participation in Board Committees

The Board of Directors has set up an internal Remuneration and Nominations Committee and a Risk, Control and CSR Committee, both of which have proposal and advisory functions and consist solely of independent Directors.

For the 2022-2024 term of office, the annual remuneration of the Directors for participation in the Board Committees was determined by the Board of Directors on May 10th 2022, following the consultation of the Board of Statutory Auditors, and is made up as follows:

Remuneration and Nominations Committee		Risk, Control and CSR Committee	
Chair	€ 25,000	Chair	€ 32,500
Member	€ 10,000	Member	€ 20,000

3.4.2 Remuneration of the Board of Statutory Auditors

The annual remuneration of the Members of the Board of Statutory Auditors consists of only the fixed component, commensurate with the commitment required of each of them. The remuneration of the current Board of Statutory Auditors, appointed at the Annual General Meeting of 29th April 2020 and in office until the Shareholders' Meeting called to approve the 2022 Financial Statements, was determined by the same Annual General Meeting, based on the benchmarking analysis conducted by Willis Towers Watson on the remuneration practices in industrial and services companies belonging to FTSE MIB Italia index, and is equal to:

Board of Statutory Auditors	
Chair	€ 62,000
Statutory Auditor	€ 45,000

The Ordinary Shareholders' Meeting scheduled for April 27, 2023, will appoint the new Board of Statutory Auditors and - to the extent of its competence - may define the relevant remuneration.

3.5 Remuneration of the Chair of the Board of Directors

For the 2022-2024 term of office, the total remuneration for the position as Chair of the Board of Directors consists exclusively of the fixed component.

The annual remuneration of the Chair of the Board of Directors, in office until the Shareholders' Meeting called to approve the Financial Statements as of December 31st, 2024, was updated by the Board of Directors on December 1st, 2021 accordance with the nomination of Mr. Andrea Recordati and is equal to:

Chair of the Board of Directors	
Remuneration pursuant to article 2389, paragraph 1, of the Italian Civil Code	€ 60,000
Remuneration for special positions pursuant to article 2389, paragraph 3, of the Italian Civil Code	€ 240,000
Total Remuneration	€ 300,000

3.6 Remuneration of the Chief Executive Officer and of Executive Directors

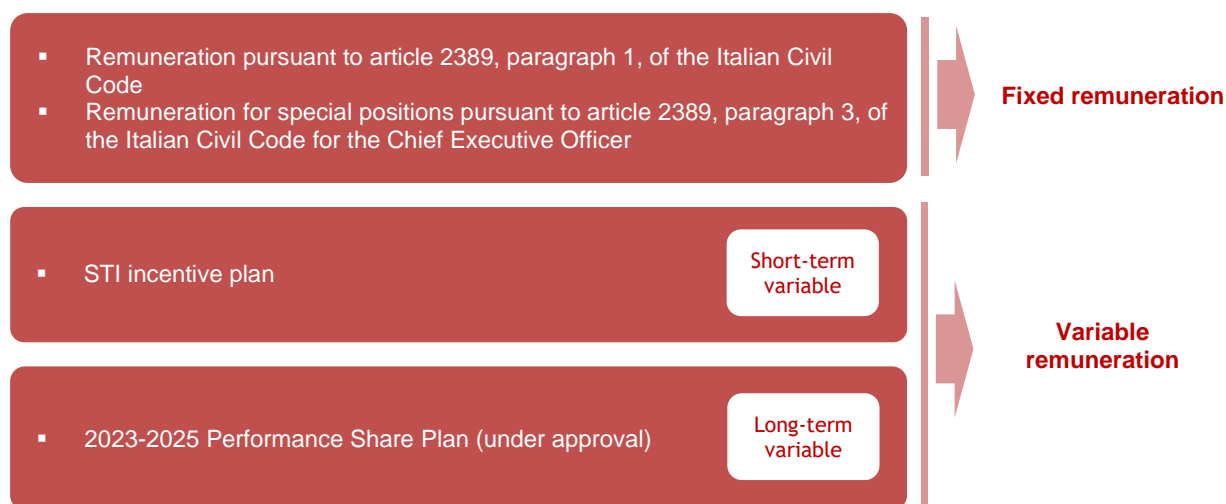

The Remuneration Policy for Recordati's Chief Executive Officer as an executive Director is defined in accordance with the specific powers granted to the role, the purposes on which the Company's Remuneration Policy is based, as well as the remuneration levels and best market practices.

With respect to the other Executive Directors that are not in charge as Recordati managers, defined as such in accordance with the provisions of the Code, namely, at the date of this report,

- Giorgio De Palma;
- Giampiero Mazza
- Cathrin Petty

The Shareholders' Meeting of 29th April 2022, on the basis of the proposal made by the shareholder FIMEI S.p.A., did not resolve upon any remuneration pursuant to article 2389, paragraph 1, of the Italian Civil Code, in favour of these persons (without prejudice to the right of reimbursement of expenses incurred in the performance of their duties) as they had previously declared that they did not wish to receive any remuneration. Therefore, the details of only the aforementioned CEO position are shown below.

The overall remuneration of the Chief Executive Officer is structured into a fixed component of a short-term variable and a long-term variable, identified as follows:

3.6.1 Market references and peer groups

During 2022, Recordati performed a benchmark analysis to verify that the remuneration packages of the Chairman and Chief Executive Officer were aligned to best market practices.

Remuneration benchmark for the Chairman of the Board of Directors

For the Chairman of the Board of Directors, the assessment of the remuneration position was carried out, upon the appointment, with reference to the role of non-executive Chairman of listed Italian companies in the industrial sector. For the purposes of identifying the reference cluster for Recordati, companies comparable to Recordati in terms of market capitalization and share structure were considered.

A2a	Italgas
Amplifon	Leonardo
Atlantia	Moncler
Buzzi Unicem	Pirelli & C.
Diasorin	Prysmian
Enel	Saipem
Eni	Snam
Hera	Telecom Italia
Interpump Group	Terna - Rete Elettrica Nazionale
Inwit	

Remuneration benchmark for the Chief Executive Officer

For the Chief Executive Officer, the assessment of remuneration positioning was carried out, upon the appointment, in comparison with the remuneration value of Chief Executive Officers of both Italian and European companies, as illustrated below. The remuneration comparison was performed during 2021 with the support of the consulting firm WTW. Another benchmarking analysis (carried out by Russell Reynolds) was also adopted. In view of any changes in market conditions, this valuation may be subject to revision in order to be consistent with the provisions of Section 3.3.

PEER GROUP - ITALIAN COMPANIES

In continuity with the past year, the peer group identified is characterised by Italian companies belonging to the FTSE MIB Italia index, comparable to Recordati in terms of market capitalisation at June 1st, 2021.

Peer group - Italian companies

3.6.2 Fixed component of remuneration

The fixed component of the remuneration of the Chief Executive Officer is commensurate with the duties and responsibilities assigned. Moreover, in line with the Corporate Governance Code, this component is determined in such a way as to be adequately balanced with respect to the variable component and consistent with the company's strategic objectives and risk management policy, also taking into account the characteristics of the industry in which the Company operates and which is listed. However, the variable component is expected to represent a significant part of the total remuneration.

The Remuneration Policy of the current CEO is defined in accordance with the specific powers conferred, as well as with the remuneration levels and market best practices.

Below are the elements that make up the fixed remuneration of the Chief Executive Officer:

Chief Executive Officer	
Remuneration pursuant to article 2389, paragraph 1, of the Italian Civil Code	€ 60,000
Remuneration for special positions pursuant to article 2389, paragraph 3, of the Italian Civil Code ⁵	€ 890,000
Total Remuneration	€ 950,000

For the CEO, the Remuneration Policy for the 2022-2024 mandate approved by the Board of Directors on March 17th, 2022 provides the definition of remuneration consistent with the complexity of the role and the commitment required, in line with current market benchmarks.

3.6.3 Short-term variable component (STI)

The short-term variable component of the remuneration package for the Chief Executive Officer is linked to an incentive scheme by objectives (MBO, Management by Objectives). On the basis of this scheme, a bonus is paid in cash on the achievement of the annual results defined by the Board of Directors, on the proposal of the Remuneration and Nominations Committee, and measured according to pre-established management parameters and weights.

Specifically, the MBO system provides for the assignment to each beneficiary of economic-financial objectives (Group EBITDA, Group Net Revenues and Group Net Profit) and individual strategic objectives. There is also a circuit breaker identified in the Group's EBITDA indicator, which if not achieved will result in the zeroing of the entire bonus.

Through the inclusion among the individual objectives of each beneficiary of an important Group objective such as the EBITDA, Recordati's MBO system tends not so much to reward individual performance in itself, but rather individual performance in a context of operating results such as to allow the payment of bonuses, in line therefore with the principle of aligning the interests of Management and Shareholders and with a view to pursuing the Company's long-term interests in line with Strategic Plan.

The following tables show the performance objectives defined for 2023 for the Chief Executive Officer:

⁵ The amount includes the non-compete and non-solicitation agreement recognized by the Company to the Chief Executive Officer

The Company reserves the right not to provide the annual value of the parameters as it considers this information to be sensitive. More detailed information regarding the level of achievement of the objectives will only be communicated at the end of the performance period.

The right to payment of the bonus accruals upon approval by the Board of Directors of the consolidated financial statements, which show that at least 95% of the Group EBITDA objective that was set when the objective was

determined has been achieved. The payment of the bonus is made during the financial year in which the aforementioned consolidated financial statements are approved.

The amount of the incentive actually paid varies according to the level of achievement of the targets assigned to the individual objectives. The following charts illustrate the bonus opportunities awarded to the Chief Executive Officer according to their financial objectives (EBITDA, Group Net Revenues and Group Net Income):

For the Chief Executive Officer, the remaining 40% of the bonus is calculated on the basis of the Acquisition/Licensing objective and the improvements in Group Industrial Operations and Group Purchasing and the driving of pipeline development projects according to planned milestones as well as the completion of the ESG initiatives for 2023 as part of the Sustainability Plan related to patient care, people care, environmental protection,

ethics & integrity and responsible sourcing, whose incentive curve is illustrated in the following chart:

In the event of failure to achieve 95% of the Group EBITDA objective, nothing is due. In the event of over-performance, it is not possible to obtain a bonus higher than the maximum one set, which for the Chief Executive Officer is equal to 100% of his fixed remuneration.

The following table summarizes the potential bonus pay-outs for the Chief Executive Officer according to the different performance levels:

	CEO
Threshold	380.000 €
Target	641.250 €
Maximum	950.000 €

The short-term variable component to be paid to the Chief Executive Officer is equal to **€ 950,000** gross per year if the maximum overall performance is achieved.

In setting the MBO objectives of the Chief Executive Officer, the Board of Directors may, subject to the opinion of the Remuneration and Nominations Committee, assess the achievement of such objectives net of significant extraordinary items, where appropriate, on an equitable basis.

At present, there is no need to defer the payment of this bonus with respect to the time when the right to receive it is acquired, because it is part of a scheme that is already significantly challenging and which, with a view to continuity, favours the setting of the same objectives for each financial year; moreover, the circuit breaker of the scheme and its main objective, represented by the Group EBITDA, is a target that all the above persons contribute to achieving, without the individual person being able to influence this achievement exclusively. Finally, it should be noted that the deferral of part of the variable remuneration is in any case ensured by the long-term incentive scheme based on the assignment of Performance Share (subject to AGM approval), as described below, further strengthened by the lockup mechanism bundle in the same plan for Key Management Personnel.

Without prejudice to the right to compensation for any further damages, the Company reserves the right, within 5 years from the payment and regardless of whether the relationship is still ongoing or terminated, to request the Chief Executive Officer to refund the bonus already paid (the so-called 'clawback'), if one of the following cases occurs:

- fraudulent and/or gross negligently behaviour by the beneficiary to the detriment of the Group;
- serious and intentional breaches of law and/or of the Code of Ethics and/or of company rules;
- payment of the bonus on the basis of data which subsequently result as manifestly inaccurate or fraudulently altered.

3.6.4 Long-term variable component (LTI)

A significant component of the variable remuneration of Recordati's Chief Executive Officer is oriented towards a long-term horizon in order to strengthen the interests of sustainable creation of value for Shareholders and Stakeholders and is based on the assignment of performance share.

The Recordati Group deems that this scheme ensures the full and constant alignment between the interests of Top Management and that of Shareholders, as it is linked both to the relative growth in value of the Recordati Share, compared with a panel of competitor companies, both to economic/financial objectives set out in the strategic plan.

During 2022, the Company defined the new 2023-2025 Performance Share Plan that will be approved by the Shareholders' Meeting of 21st April 2023 subject to the cancellation of the third tranche of 2021-2023 Stock Option plan.

It should also be noted that the 2014-2018 Stock Option Plan, the 2018-2022 Stock Option Plan and 2021-2023 Stock Option Plan, approved by the Shareholders' Meeting respectively on 17th April 2014, on 18th April 2018 respectively (and subsequently amended on 11th April 2019) and 20th April 2021 continue to regulate the tranches of options allocated on the basis of those plans.

The 2023-2025 Performance Share plan provides for the grant to the beneficiaries of the right to receive free of charge a certain number of the Company's Shares, after a certain period of time (vesting period) has elapsed, once the condition for the achievement of the performance objectives indicated below has been met.

The grant of shares under the 2023-2025 Performance Share Plan occurs on annual basis (the so-called 'rolling approach') and takes place in three cycles starting from the 2023, 2024 and 2025 financial years. The number of shares granted to each beneficiary is linked to the importance of the organisational role held by the various top positions. Depending on the performance conditions, the maximum number of achievable shares may be 175% of the shares granted. The Executive Directors include the Company's Chief Executive Officer and CFO as beneficiary.

The rights to receive the shares granted to beneficiaries vests no less than 3 years after the grant date (so-called 'vesting period').

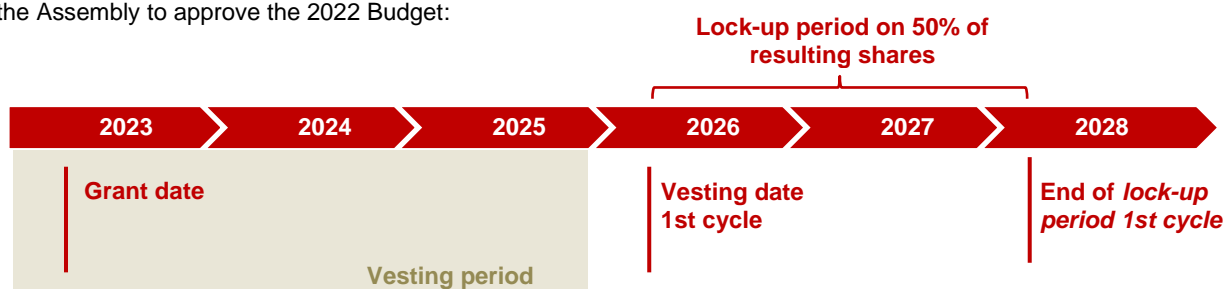

A condition for the allocation of shares granted is the achievement of a series of performance objectives, which are based on the Adjusted Net Income Budget, cumulated over the three-year reference period, to the three-year cumulative Net Revenues Budget and Total Shareholder Return (TSR) against a panel of companies.

Panel of companies for Total Shareholder Return		
Almirall	Amplifon	DiaSorin
Grifols	Ipsen	Jazz Pharmaceuticals
Lundbeck	Orion	Pharming
Sobi	UCB	

The existence of such performance clauses in the 2023-2025 Performance Share Plan are also in line with the principle of consistency of the Remuneration Policy with the pursuit of the interests of the Company and its Shareholders to which the interests of management must be aligned.

The Plan also requires beneficiaries who are members of Recordati's top management to continuously hold a number of shares - equal to 50% of the shares resulting after the sale of the shares necessary to cover the payment of the tax, social security and welfare charges - until the end of the 24th month following the relevant vesting date.

The following is a timeline of the 2023-2025 Performance Share Plan for the first allocation cycle pursuant to the resolution of the Board of Directors of 24 February 2023, the effectiveness of which is subject to the approval of the Assembly to approve the 2022 Budget:

Without prejudice to the right to compensation for any further damages, the Company reserves the right (so-called 'clawback'), within 5 years from the vesting date and regardless of whether the relationship is still in existence or terminated, to obtain from the Beneficiary to return the shares held by the Beneficiary less a number of shares of a value corresponding to the tax, social security and welfare contributions, (possibly also by offsetting them against the remuneration and/or severance indemnity of the Beneficiary) if the shares of the Beneficiary have already been sold, should any of the following cases occur:

- fraudulent and/or grossly negligent behaviour of the beneficiary to the detriment of the Group;
- serious and intentional violations of laws and/or the Code of Ethics and/or company rules;
- payment of the bonus on the basis of data that is subsequently found to be manifestly inaccurate or intentionally altered.

For further information on the Plans, please refer to the information documents published in the Corporate Governance section of the Company's website: (https://www.recordati.com/en/corporate_governance/remuneration/stock_option_plans/).

3.7 Remuneration of Key Management Personnel

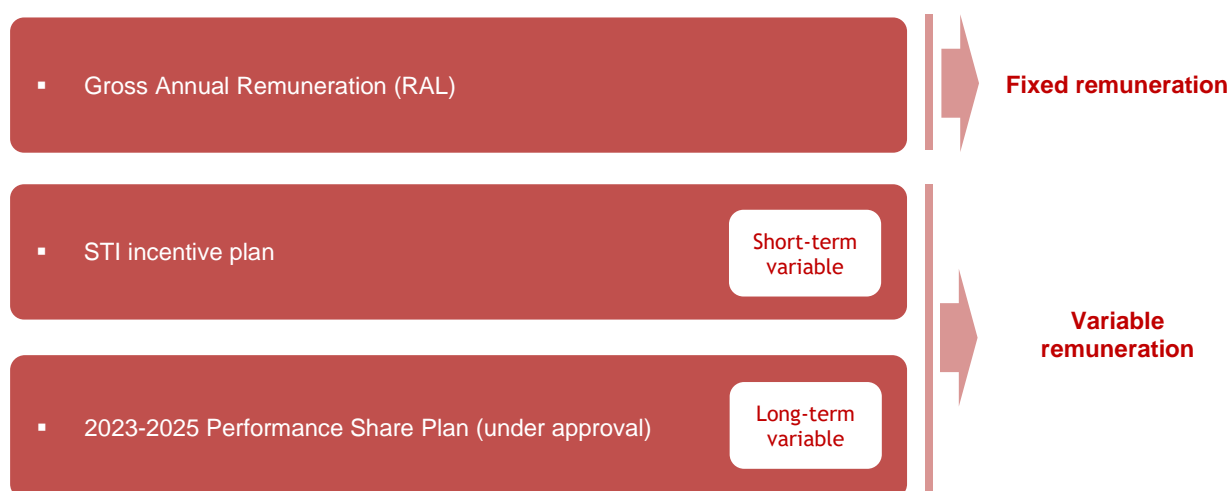

Key Management Personnel are those persons who have the power and responsibility, directly or indirectly, for planning, management and control of the Company's activities. At the date of this Report, the following persons are Key Management Personnel:

- Luigi La Corte – Group Chief Financial Officer, that is also a member of Board of Directors;
- Alberto Martinez – Executive VP Specialty and Primary Care Business Unit;
- Scott Pescatore – Executive VP Rare Disease Business Unit;
- Gabriele Finzi – Executive VP Corporate Development, Licensing and Innovation;
- Roberto Teruzzi – Executive VP Group Industrial Operations;
- Raffaele Sabia – Senior VP R&D and Medical Affairs.

In defining the Remuneration Policy for Key Management Personnel, it was taken into account that these were recipients of a Policy in which a part of the remuneration is linked to the achievement of specific performance objectives, non-financial objectives, predetermined, measurable and linked in significant part to a long-term horizon. They are consistent with the Company's strategic objectives and are aimed at promoting its sustainable success (Article 5, Recommendation 27 of the Corporate Governance Code).

The managerial employment relationship of Key Management Personnel in Italy is governed by the applicable National Collective Bargaining Agreement (CCNL) of companies producing goods and services in force. For other Key Management Personnel employed by the Group's foreign subsidiaries, the employment relationship is governed by the applicable local regulations and, where applicable, by the collective bargaining agreements provided where the subsidiary is located. In Italy the general treatments provided for Executives are applicable to Key Management Personnel in addition to those listed below.

The total remuneration of Key Management Personnel is structured into a fixed remuneration and a short and a long-term variable remuneration, identified as follows:

3.7.1 Fixed component of remuneration

The fixed component of the remuneration of the Key Management Personnel, the Gross Annual Remuneration (*Retribuzione Annuale Lorda* - RAL), *i.e.* the contractually guaranteed annual remuneration, is monitored for all the top positions by the industry remuneration surveys and its value is positioned, in order to meet adequate retention and remuneration criteria, at a competitive level with respect to the market.

Changes over time in the fixed component of remuneration are implemented on the basis of growth rules that take into account the role, the level of performance over time and the pay gap with respect to the remuneration levels of the reference market.

3.7.2 Short-term variable component (STI)

Recordati's Key Management Personnel are beneficiaries of the same short-term incentive scheme (MBO, Management by Objectives) assigned to the Chief Executive Officer. Therefore, what has been described above is intended to be fully referred to herein, with the exception of the performance objectives assigned and the bonus opportunities of the beneficiaries.

The following table shows the type of objectives assigned to the Key Management Personnel:

2023 MBO OBJECTIVES - KEY MANAGEMENT PERSONNEL

CIRCUIT BREAKER	ON/OFF CONDITION
Group EBITDA	Activation of the scheme only if at least 95% of the budget objective is achieved

All Key Management Personnel have the following Group objectives:

OBJECTIVES	FEATURES
ECONOMIC AND FINANCIAL OBJECTIVES	Set excluding new M&A/licensing transactions related to products already on the market, performed during the reference financial year
Group EBITDA	The result is measured in relation to the predefined budget. The following performance levels are provided: <ul style="list-style-type: none"> • Threshold: budget -5% • Target: budget • Maximum: budget +5%

The Key Management Personnel are also assigned, depending on the position held, other economic and financial objectives (set excluding M&A/licensing transactions related to products already on the market, performed during the reference financial year), and/or qualitative objectives, with different weights:

OBJECTIVES	FEATURES
Net Revenues (based on specific remit)	The result is measured in relation to the predefined budget. The following performance levels are provided: <ul style="list-style-type: none"> • Threshold: budget -2.5% • Target: budget • Maximum: budget +2.5%
Profitability (based on specific remit)	The result is measured in relation to the predefined budget. The following performance levels are provided: <ul style="list-style-type: none"> • Threshold: budget -5% • Target: budget • Maximum: budget +5%
Management Objectives	There are individual objectives linked to specific responsibility areas measured on a performance scale that provides for a threshold, a target and a maximum level which corresponds a predefined portion of the bonus.

The Company reserves the right not to provide the annual value of the parameters as it considers this information to be sensitive.

More detailed information regarding the level of achievement of the objectives will only be communicated at the end of the performance period.

As mentioned in section 3.1.1, one Key Management Personnel member is also assigned ESG objectives.

In the event of over-performance, it is not possible to achieve a bonus higher than the maximum set, which, for Key Management Personnel, can vary from 65% to 75% of the annual base salary depending on the position held.

3.7.3 Long-term variable component (LTI)

A component of the variable remuneration of Recordati's Key Management Personnel is oriented towards a long-term horizon in order to strengthen the interests of sustainable creation of value for Shareholders and Stakeholders.

Recordati's Key Management Personnel are beneficiaries of the same long-term incentive scheme (LTI) as that envisaged for the Chief Executive Officer, i.e. the 2023-2025 Stock Performance Share Plan, submitted for approval to the Shareholders' Meeting of 21st April 2023 and, upon exhaustion the 2021-2023 Stock Option Plan, approved by the Shareholders' Meeting of 20th April 2021, and, the 2014-2018 Stock Option Plan, the 2018-2022 Plan. Therefore, the contents of the preceding paragraphs are to be considered referred to here in full.

Under the proposed 2023-2025 Performance Share Plan, Recordati's Key Management Personnel will be awarded shares with a value at grant based on 90% salary

3.8 Further information on remuneration

3.8.1 Transaction Bonus and Integration Bonus

Recordati's Remuneration Policy provides for the possibility of paying a bonus linked to the achievement of significant results for the Group in the case of significant business development transactions (M&A/Licensing). This provision is linked to the strategic importance of such transactions as a growth mechanism for the Recordati Group, as well as an instrument to ensure the Group's continued success in the Primary & Specialty Care and Rare Diseases areas. The proven ability to achieve significant growth through external operations will continue to support the Recordati Group in identifying new partners and in implementing new acquisition or licensing agreements. Therefore, M&A/licensing transactions represent fundamental activities so as to enable the Company to offer an increasingly richer product portfolio, an increasingly wider geographical coverage and consequently ensure the sustainability of the business in the long-term. In addition, it should be noted that in the new MBO scheme, financial targets are set and achievement assessed on a constant perimeter, i.e. excluding M&A/licensing transactions related to products already on the market, performed during the reference financial year. It is therefore important to provide for an additional bonus scheme to reward the Top Management's activities in relation to such strategically significant transactions for the Group. It should be noted that the beneficiaries of any Transaction Bonus and Integration Bonus do not include the Chief Executive Officer, since the implementation of this type of transactions is already provided for at the short-term incentive scheme level.

In order to provide an incentive to other Key Management Personnel of the Company to carry out strategic M&A/licensing transactions, the following may be awarded:

- a transaction bonus aimed at rewarding the roles directly involved and having a significant impact on the success of an M&A/licensing transaction; the positive outcome, and therefore the possible awarding of this bonus, will be assessed by the Chief Executive Officer on the basis of an outlook linked to economic and financial indicators, effort and of the timing of the transaction itself. The value of the bonus awarded may vary between 15% and 30% of the Gross Annual Remuneration. 50% of the bonus will be paid at the time of the closing of the extraordinary transaction and 50% after around one year subject to the achievement of predefined economic and financial results relating to the transaction itself and/or defined integration plan milestones.
- an integration bonus, aimed at specifically rewarding roles with a significant impact on the positive outcome of the integration process following an M&A transaction. The positive outcome, and therefore the possible awarding of this bonus, will be assessed directly by the Chief Executive Officer on the basis of an outlook linked to economic-financial indicators and the timing of the integration itself. The value of the

bonus awarded may vary between 15% and 30% of the Gross Annual Remuneration. 70% of the bonus will be paid at the time when predefined milestones have been reached in the integration plan, and 30% at the end of the integration plan and subject to the achievement of predefined integration objectives.

It should be noted that Transaction Bonuses and Integration Bonuses may also be awarded to other managers who, although not qualifying as Key Management Personnel, are directly involved and have a significant impact on the success, respectively, of an M&A/Licensing transaction, or of the integration process following an M&A transaction.

3.8.2 Non-monetary benefits

The Remuneration Policy does not provide for particular non-monetary benefits other than those that can be defined as standard for top positions (e.g. company car, the supplementary insurance to that provided for in the national employment contract and the D&O policy).

3.8.3 Severance indemnity

The Remuneration Policy does not provide for severance indemnities for non-executive Directors.

With regard to other Key Management Personnel, including executive Directors (excluding the Executive Directors qualified as such by the Board pursuant to the Corporate Governance Code, who, as noted above, have previously declared that they do not wish to receive any remuneration), if deemed appropriate in the best interests of the Company and in relation to the importance of the Manager's position within the company organisation, agreements may be entered into which involve the payment of special indemnities, in any case not exceeding 24 months of the fixed remuneration and the short-term variable remuneration calculated as the average of the annual bonuses paid in the 36 months previous to the date of termination of the employment relationship (without prejudice to the provisions of the applicable National Collective Agreement), in the event that the Company terminates the employment relationship for reasons other than just cause, also with reference to the market practices in force at the time; taking these practices into account, there is generally no provision for links between such treatments and the Company's performance. In all cases, in the event of early termination of the employment relationship for reasons other than just cause, Key Management Personnel will be paid the indemnities provided for, in Italy, by law and the current National Collective Bargaining Agreement for 'Executives of Companies Producing Goods and Services' (so-called Industrial Companies) or for employees of foreign subsidiaries, by locally applicable regulations/collective bargaining agreements and by market practices, in certain cases in addition to a further amount, determined on an equitable basis.

In the event of termination from office and/or termination of the relationship with an executive Director, as a result of internal processes leading to the granting or payment of indemnities and/or other benefits, the Company will disclose detailed information on the matter to the market.

There are no agreements which involve the assignment or maintenance of non-monetary benefits or the stipulation of special consultancy contracts in the event of the termination of an employment relationship. There are no agreements which involve remuneration for non-competition commitments on termination of an employment relationship or end of office outside the one provided for the Chief Executive Officer.

As concerns the effects of the end of an employment relationship/other relationship equivalent to an employment relationship or an administrative relationship on LTI existing incentive plans based on current financial instruments approved by Recordati S.p.A., in accordance with Article 114-bis of TUF (*Testo Unico della Finanza*), please refer to the relevant Information Documents drawn up pursuant to art. 84-bis of the "Regolamento Emittenti".

3.8.4 Additional insurance, social security and pension coverage

No further coverage other than those required by law or by collective bargaining agreement is entered into by the Company, with the exception of supplementary insurance to the Italian Supplementary Health Care Fund (F.A.S.I.) for 'Executives of Companies Producing Goods and Services' (so-called Industrial Companies) to cover medical expenses (or similar forms of insurance for employees of foreign subsidiaries) and a D&O policy, as well as an insurance policy for the Chief Executive Officer to cover life risk, health risk (including family members), disability risk and accident risk, again for the Chief Executive Officer, the supplementary pension plan that continued seamlessly.

Section II: Report on the remuneration paid for 2022

Introduction

This section is divided into two parts which illustrate respectively the following:

- **Part I** focuses on the different elements that make up the remuneration (including the treatments provided in the event of termination of office or termination of the employment relationship);
- **Part II**, through the annexed tables, focuses on the remuneration of the members of the management and supervisory bodies and the information relating to the shares held in the Company, as well as the remuneration provided for the Company's and for subsidiaries' Key Management Personnel.

This Section is subject to a non-binding vote by the Shareholders' Meeting as provided for by article 123-ter of Italian Legislative Decree no. 58 of 24th February 1998 (the 'Consolidated Law on Finance', updated on the basis of Italian Legislative Decree no. 49 of 10th May 2019) which provides in paragraph 6: '*Without prejudice to the provisions of [...] the Shareholders' Meeting called [...] resolves in favour or against the second section of the report established by paragraph 4. The resolution is not binding*'.

In addition, the person appointed to carry out the statutory audit of the financial statements verifies that the directors have appropriately prepared this Section, as required by article 123-ter of the Consolidated Law on Finance (as updated by Italian Legislative Decree of 10th May 2019).

The remuneration of the members of the management and supervisory bodies is illustrated by name; instead, the remuneration provided for the other Key Management Personnel members is represented in the aggregate.

The implementation of the Policy, as verified by the Remuneration and Nominations Committee during the periodic assessment provided for in the Corporate Governance Code, was substantially in line with the general principles approved by the Board of Directors.

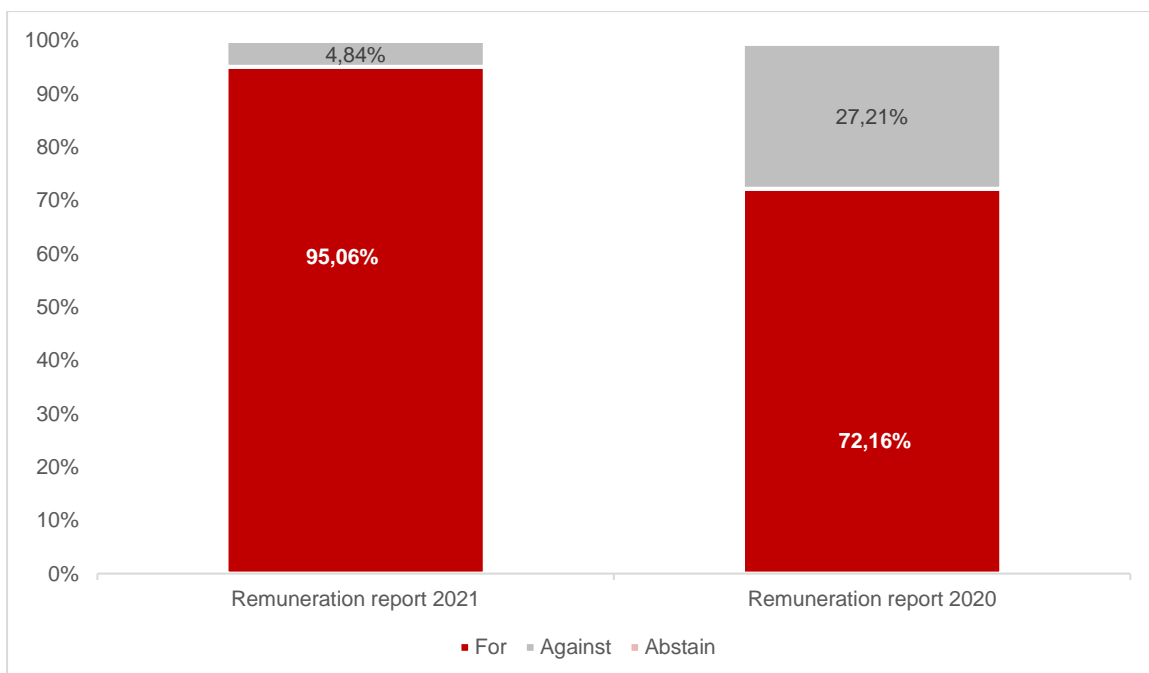

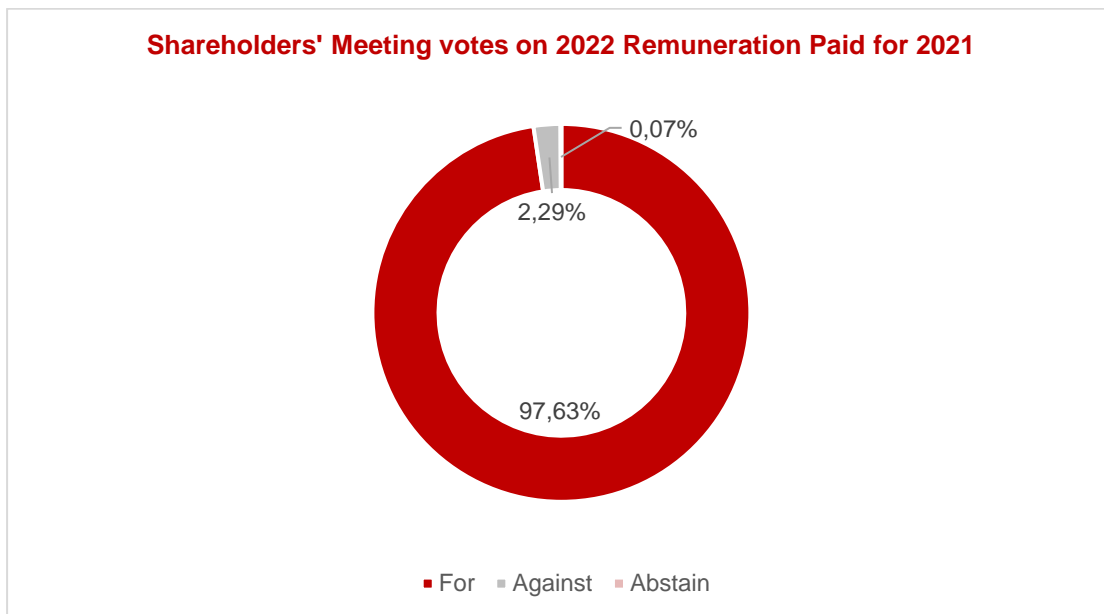

With reference to the representation of each of the items that make up remuneration, including the treatments provided in the event of termination from office or termination of the employment relationship, please refer to what has already been described in detail in Section I.

The remuneration items reported are consistent with the Policy approved in 2022 by the Board of Directors and submitted to the advisory and non-binding vote of the Shareholders' Meeting on 29th April 2022 pursuant to article 123-ter, paragraph 6, of the Consolidate Law on Finance, which voted in favour.

Short-term variable incentive

Chief Executive Officer

With reference to the short-term incentive scheme (STI), the level of achievement of the objectives approved by the Board of Directors with regard to the Chief Executive Officer is shown below:

CIRCUIT BREAKER	ON/OFF CONDITION
Group Operating Income*	ON
OBJECTIVES	LEVEL OF ACHIEVEMENT
ECONOMIC AND FINANCIAL OBJECTIVES (65%) set excluding new M&A/licensing transactions related to products already on the market, performed during the reference financial year	
Group Operating Income* (32.5%)	Maximum achievement
Group Net Revenues (19.5%)*	Maximum achievement
Group Net Income* (13%)	Maximum achievement
STRATEGIC OBJECTIVES (30%)	
Acquisition/Licensing	Threshold level not achieved
Achievement of the main objectives of the integration with EUSA Pharma	Threshold level achieved
Achievement of ESG initiatives for 2022, as per the ESG Plan	Threshold level achieved

* Adjusted for the impact of exceptional, non-recurring costs related to extraordinary transactions as the costs of restructuring including right sizing, costs deriving from the acquisition of the EUSA Pharma group, for the impact of Ukraine conflict and for the adoption of IAS29 due to hyperinflation in Turkey.

The Board of Directors, having heard the favourable opinion of the Remuneration and Nominations Committee, has approved this adjustment, being in line with the Policy which allows adjustments for exceptional items on an equitable basis.

On the basis of the performance achieved, the overall remuneration for the Chief Executive Officer, to be paid as short-term variable component relating to the 2022 performance period, is therefore equal to € 760.000 gross, equal to 80% of the gross annual remuneration. The incentive accrued in 2022 as MBO will be paid in 2023 in accordance with the procedures set out in the MBO system. This short-term variable remuneration represents 37% of the total remuneration received by the Chief Executive Officer, calculated as the sum of fixed remuneration and short-term and long-term variable remuneration relating to 2022.

Key Management Personnel

The other Key Management Personnel⁶ members have accrued - on the basis of the performance achieved in relation to the MBO system - an overall annual variable remuneration of € 1.696.000 gross.

Overall, the amount of variable remuneration granted to Key Management Personnel is on average equal to 65% of the gross annual remuneration.

Long-term variable incentive

As at 31st December 2022, the following long-term incentive plans are in place:

- 2014-2018 Stock Option Plan;
- 2018-2022 Stock Option Plan.
- 2021-2023 Stock Option Plan

Chief Executive Officer

For the Chief Executive Officer, with reference to the long-term incentive scheme, 130.000 options are assigned with reference to the second cycle of the 2021-2023 stock option plan.

The remaining options relative to the first cycle of the 2021-2023 stock option plan, already assigned and not yet matured in 2022, will mature in the next years according to the timeframe set out in the 2021-2023 Stock Option Plan Regulations.

The fair value of the options relating to 2022 assigned to the Chief Executive Officer is € 348.000. This value represents 17% of the total remuneration received by the Chief Executive Officer, calculated as the sum of fixed remuneration and short-term and long-term variable remuneration relating to 2022.

It should be noted that in Table 1 column 7 (fair value of equity plans), the amount indicated therein does not include the fair value of an incentive plan, with a vesting period of 5 years, granted and fully financed by Rossini Luxembourg S.à rl , indirect shareholder of Recordati SpA, in favour of the Chief Executive Officer (as well as, as illustrated in the following paragraph, in favour of key management personnel). For more details, please refer to the following paragraph on key management personnel.

Key Management Personnel

Also, for the other Key Management Personnel members, with reference to the long-term incentive scheme, given that the performance condition relating to the Group's consolidated net income has been met, the following options have matured in the 2021:

- a total of 76,250 options assigned to six (6) Managers of the Company or of subsidiaries with Strategic Responsibilities in relation to the 2018-2022 Stock Option Plan

The remaining options, already assigned and not yet matured in 2022, will mature in the next years according to the time scales provided for in the Plan Regulations.

It should be noted that in Table 1, column 7 (fair value of equity compensation), the amounts indicated do not include the fair value relating to the incentive plan, with a maturity period of 5 years, granted, starting from 2019, and fully financed by Rossini Luxembourg S.à.r.l., indirect shareholder of Recordati S.p.A., in favour of key

management personnel, as well as, finally, the Chief Executive Officer. These subjects will benefit from a return at the end of the plan and when certain performance conditions are met. The recognition of this incentive plan in accordance with IFRS 2 resulted in a charge in the 2022 income statement of € 1.4 million, against a corresponding increase in equity.
